A-Z Business Training Ltd

100 AS Worksheets covering the 2008 Specification for Business Studies

Edexcel Economics and Business AS Level

OCR Business Studies AS Level

AQA Business Studies AS Level

Edexcel Business Studies AS Level

- **Written by Ian Marcousé and Claire Marcousé**
- **Ideal as starter or review activities – or for breaking up a lesson with sharp, thought-provoking questions**
- **All come with answers, fully worked where necessary**
- **A photocopiable resource plus disk, for you to keep on your machine to print when needed, or to network – with or without answers**
- **Price includes full network, site and VLE licences!**

Each worksheet contains a range of 'brainteaser' activities. They require students to recall knowledge, show the skill of application and provide evidence of numerical and written analysis. The questions are short and sharp, inviting students to work rapidly and often collaboratively. Each topic has a full page of questions and has the answers printed on the back, making the resource wonderfully easy to use in the classroom.

Covering New Specification Content

1. Topics students always find hard, such as capacity utilisation, price elasticity and cash versus profit
2. Topics that are new to the AS Specifications, such as motives for entrepreneurship, profit margins, returns on capital investment, customer service and market mapping
3. Topics that are loved by examiners, such as market research, break-even, budgeting and organisational structure

The resource consists of 100 sheets of stiff, long-lasting paper in a robust A4 ring binder. At the front is a CD for you to install on your PC, and/or to put onto your intranet or VLE. The price of the resource includes full site and network licences. The CD has 3 key functions: 2 separate files containing all the questions and all the answers, making it easy to put all the Qs on a VLE/network; PDF files of all the worksheets, so you can print what you need at those times when the photocopier is busy/broken or too far away; Word files of all the contents, in case you want to add to or update the data and questions.

Tailored to 2008 Specifications
